

SMART Board™ 600i

interactive whiteboard system

Inspired Learning

With a SMART Board 600i interactive whiteboard system in your classroom, you will be able to focus on teaching instead of managing technology. You are the one who controls a complete creativity centre that will make learning a dynamic experience for your students. So now your students can listen to a historic speech, watch a documentary from a DVD or VCR, or tour an art gallery on the Internet. Best of all, you make it all happen using just one system – the SMART Board 600i interactive whiteboard system.

Front and Center

The days of scheduling AV personnel to set up media components are over. The SMART Board 600i interactive whiteboard system combines a wall-mounted Unifi™ projector with a built-in sound system and a SMART Board interactive whiteboard. Because the projector is securely mounted on the wall above the SMART Board interactive whiteboard, shadows are reduced and there is no need to run cables across the floor.

Easy to Use

The controls for the projector and sound system are conveniently located on the SMART Board interactive whiteboard, so you don't need to search for a remote control to begin your lesson. If you need to connect additional devices such as a document camera, a computer or DVD player, just plug into the connection panel close at hand.

Easy to Buy, Easy to Install

Purchasing and installing the SMART Board 600i interactive whiteboard system is straightforward. The system comes with a mounting template for both the interactive whiteboard and the projector. Once you have both components installed, you only have to align them once. And because everything is permanently installed, theft is less likely to occur.

The SMART Board 600i interactive whiteboard system combines a wall-mounted Unifi projector with a built-in sound system and a SMART Board interactive whiteboard.

Focus on teaching instead of managing technology.

Features

Model	Active screen area (diagonal)
SB680i	77" (195.6 cm)
SB660i	64" (162.6 cm)

SMART Board Software

Notebook software's take-home privileges make it easy for instructors to work from anywhere they choose.

- Create, manage and teach lessons with Notebook software
 - Use a keyword search to find thousands of free learning objects in the Gallery including images, backgrounds, Adobe® Flash®, video and audio content. And add your own content.
 - Access country-specific lesson activities, curriculum standards and classroom resources from within the Gallery
 - Attach a hyperlink to an object to link to webpages, whiteboard pages in the file, attachments or documents on the computer
 - Include superscript and subscript to your text, or add scientific symbols and notation
 - Rotate, move, flip, and resize objects, including notes and screen captures
 - Use Dual Page Display to view two pages simultaneously. You can draw, take notes and attach files or link to objects and websites on either page.
 - Share content on the network without an administrator's installation
 - Reveal all hidden links on a Notebook page with the View All Links function
 - Make objects transparent
 - Organize pages in the Page Sorter
 - Drag objects between pages and from other applications
 - Save files in various formats (e.g., PDF, HTML)
 - Save pages as separate image files (e.g., JPEG, PNG, GIF)
 - Share files across platforms (e.g., Windows® operating systems, Mac OS operating system software, Linux® operating systems)
 - Move toolbars to the bottom of the screen
 - Choose drawing tools for connectors, dotted lines, pen styles and more
 - Import and export Microsoft® PowerPoint® files
- Convert handwriting to text
- Reveal information with the Screen Shade or Spotlight
- Write over moving or paused video
- Use LinQ™ software with your wired or wireless network for quick connections between devices. Use your laptop to project onto and control the interactive whiteboard (and vice versa).
- Access common applications from the Start Center
- Record all screen activity as a video, and include audio from a microphone
- Customize the Floating Tools palette
- Input text with the On-Screen Keyboard
- Write and save notes in many third-party applications*
- Write over PowerPoint slides, Word and Excel® files, and save your notes in these files
- Write and save into Paint, CorelDRAW® and AutoCAD® software and conferencing applications such as SMART's Bridgit™ software
- Choose from 35+ languages**

*Windows operating systems only
**As of November 2006

SMART Board interactive whiteboard – The touch-sensitive display connects to your computer and Unifi projector to show your computer image. You can then control computer applications directly from the display, write notes in digital ink and save your work to share later. The SMART board interactive whiteboard comes with feature-rich SMART Board software.

Unifi projector – An integrated XGA (1024 x 768) projector featuring Vikuiti™ Super Close Projection. A locking mount secures it in place.

Audio system – Two, 20-watt, stereo-amplified speakers are controlled from the pen tray.

Control module – Launch the Unifi projector on-screen interface and control projector power and volume from the pen tray.

Unifi on-screen interface – Select projector sources, adjust projector settings and access help screens, all from the SMART Board interactive whiteboard.

Connection panel – Easily connect computer, VCR, document camera, DVD player or other peripherals.

Annotate over any source – Pick up a pen and write over any source, including video and capture to a USB storage device.

Warranty – Two-year warranty of Unifi projector, 90 day or 500 hour warranty on lamp. SMART Board interactive whiteboard warranty is five years upon product registration, two years standard.

System requirements Windows operating systems

Pentium® II 450 MHz processor • 128 MB of RAM (256 MB recommended) • 136 MB of free hard disk space for minimum installation (511 MB for full installation with Gallery collections) • Windows NT® 4.0 (SP6), Windows 98 operating system or later • Microsoft Internet Explorer 6.0 or later • Macromedia® Flash® player version 8

System requirements Mac OS operating system software

700 MHz processor (1 GHz or faster recommended) • 128 MB of RAM (256 MB recommended) • Mac OS X versions 10.3.9 and 10.4 • 148 MB of free hard disk space for minimum installation (423 MB for full installation with SMART Essentials for • Educators: Gallery Collections for Notebook Software) • SMART Board software version 9.5 supports Intel® processors (Universal Binary) • Safari 1.3.2 or later • Macromedia Flash player version 8

System requirements Linux operating systems

Pentium II 450 MHz processor • 128 MB of RAM (256 MB recommended) • 185 MB of free hard disk space for minimum installation (460 MB for full installation with Gallery Collections) • Linux® kernel version 2.6 or later (2.6.13 or later to use DT770 hardware) • X Window system version 11 release 6 (X11R6) or higher that supports XRENDER and Xinerama • glibc 2.3.3 (gcc 3.4.2) • libstdc++6 • GNOME™ 2.8.0+ or KDE® 3.3+ libraries recommended • SUSE® 10, Red Hat® Enterprise Linux 4 WS or Fedora™ Core 3+

NOTE: Other versions of SMART Board software are available for UNIX® and Linux systems, as well as for earlier Windows and Macintosh operating systems. Windows and Macintosh operating systems.
